INDEPENDENT DEVELOPMENT PROJECTS

- **Personal Site:** Created a web application with JavaScript to showcase my portfolio and resume. Here users will be able to check out other applications I've created and get in contact with me.
 - **StoreFront:** Created a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.
 - **Dungeon Application:** Created a console application in C# with custom classes.
-
